

IT Services Software Support Services

IT Services can provide your school with exceptionally valued **Administration ICT services** for Microsoft and Capita SIMS applications.

- ✓ The IT Services **SIMS managed service** will provide upgrade risk evaluation, manage and handle the software installation, supply training places and telephone support for a range of SIMS modules in your school.
- ✓ For **Training services** on SIMS or Microsoft applications please contact us for availability of places on our regular courses.
- ✓ To assist your school administration IT Services can supply a trained **Administrative assistant** for your office on a **regular scheduled visit** at your chosen frequency.
- ✓ If you already have an IT Services computer support service a full SIMS .net secure **administration fileserver solution** is available from IT Services. This solution is compatible with the DfES whole school network model and supports electronic registration.
- ✓ All technician services include line management, absence cover, third tier support and staff development.
