

Please read the Net Capacity guidance (DfES/0739/2001) before filling in this form for the first time. This form can be used to assess any primary, middle deemed primary or first and middle school. It is easiest to use the computer spreadsheet, available at www.dfes.gov.uk (search for 'netcapacity'). Use this page to identify the basic information required. List all spaces in the Net Area Schedule on page 2 (following the notes on the facing page). All boxes shaded in grey will be worked out automatically in the computer spreadsheet. The 'Declaration of Accuracy' should be signed by the Head Teacher and a representative of the Local Education Authority.

School Details

LEA

DfES LEA/school number date

school name

age range to

first admission year for instance 'Y2' or 'R' if reception (do not include nurseries: see below)

normal year of admission

number of years ^a number of years that those in the admission year will be at this school (e.g. '7')

planned admission number ^b if known (allowing for infant class size limits)

number of age groups ⁿ (a + e + h)

If applicable: complete the boxes below if the school is on a small or split site or has more than one year of admission.

no. of sites ⁱ

total site area ^m
(m²)

(second admission year, if applicable) ^c (third admission year, if applicable) ^f

^d ^g

^e ^h

e = (c x d) / b h = (f x g) / b

If applicable: Description of

LEA designated Early Years and Childcare provision, if any

including the age range and the number of places involved. Enter area in 'net area' column and note with an 'E' at step 4

LEA designated specially resourced facilities, if any

non-school facilities (such as a community library, multi-agency facilities, or youth centre) or support facilities (such as an SEN support centre or a Learning Support Unit). Include the number of any additional specially resourced places, if applicable. Enter area in 'net area' column and note with an 'R' at step 4

LEA designated adult learning facilities, if any

(such as City Learning Centres, teacher training, or other Lifelong Learning facilities). Enter area in 'net area' column and note with an 'A' at step 4

Net Area Schedule (and allocation of workplaces)

Capacity Calculation

Basic Workplaces Resource Workplaces

Workplaces Not Included in Capacity Calculation (if measured)

parents/community room	0	0	workplaces in space marked 'P' at step 4, only one per school
early years and childcare facilities	0	0	workplaces in spaces marked 'E' at step 4, as described under School Details
specialised resourced facilities	0	0	workplaces in spaces marked 'R' at step 4, as described under School Details
adult learning facilities	49	13	workplaces in spaces marked 'A' at step 4, as described under School Details

All calculations below should be **rounded down** to the nearest whole number.

Workplaces Included in Capacity Calculation 257 106

totals of all workplaces except those shown above as excluded or marked 'W' at step 4

capacity based on classbases 150 r

basic workplaces in spaces marked 'C' at step 4, or $((p + q) \times 70\%)$, if lower

basic workplace allowance 75 s

$(75 \times l)$, plus 50 if (m) is less than $(1500 + (15 \times r))$

maximum workplaces available 150 v

(r), or $((p - s) \times 70\%)$, if higher

minimum workplaces available 105 w

lower of $(v \times 90\%)$ and v rounded down to nearest multiple of $(30 \times n / 4)$

capacity based on planned admission no. 210 x

$(b \times n)$

Net Capacity 150 y

if x is more than v, then $y = v$
if x is between v and w, then $y = x$
if x is less than w, then $y = w$

ed.
ep 4

first admission year 21 z (y / n) rounded down (n, c, e, f and h as calculated under School Details)

(second admission year, if applicable) (third admission year, if applicable)

$(z \times e) / c$ $(z \times h) / f$

Declaration of Accuracy

We confirm that we are satisfied with the accuracy of the information given under School Details and the status of spaces (step 4 of the Net Area Schedule) on this form.
