SESS & CAMHS
Mental Health Interest Group

MHIG

The SESS CAMHS Mental Health Interest Group will offer further twilight training sessions for all education staff next term. The following three sessions have now been agreed and can be booked by ringing 637 6075. We are asking that no more than two sessions be booked at a time. A reserve list will operate although we still have a problem with people booking places and then not coming - this means that people who would have liked to come cannot as places are limited. A few days before the session a reminders will be e-mailed to the schools of those who have booked to try and maximise attendance. Please consult the IWISCH website where information will also be available about the sessions.
