

Telling the time

Use your clockfaces to work out and show the times mentioned in this story:

Ryan ran to the bus stop. His watch read half past eight. 'Just in time for the bus' he thought, 'I have to be at school by nine o'clock, and the bus takes 15 minutes.

Just then the bus arrived and he got on.

- Did Ryan get to school early or late?
- If the bus arrived at half past eight, and takes 15 minutes to get to school, what time did Ryan arrive at school?
- If Ryan had missed the bus he would have to wait a quarter of an hour for the next one. What time would it arrive? Would he still get to school on time?
