

Year 3 Unit 10 (Summer Term) – Resource Sheet 10.4

Summer Fun

1. Some friends are going on a trip to the circus. Tickets cost £5 and they have saved £63. This is enough to buy them all a ticket. How many friends do you think are going to the circus?

2. A stall at the summer fair collects 103 £1 coins. If the coins are changed for £10 notes, how many notes will there be and how many £1 coins will be left?

3. There is a toffee apple stall at the fair 6 packs have 4 toffee apples in and 5 packs have 8 toffee apples. If he puts all his toffee apples into stands that hold 6, how many stands will be full? Will there be any toffee apples left?

4. At the fairground there are dodgem cars. 4 children can fit into one car. How many cars will be needed for 46 children to have a ride?

5. There are lollies for sale. How many can be bought with £3.50 if they cost 30p each?
